

## FIRST BLOW IN STEEL STRIKE

Strikers at Wellsville, O., Attack a Non-Union Boarding House.

## A RIOT IS FEARED

Steel Magnates and Labor Men in Conference in New York Today.

## THE SESSION SECRET

Wellsville, O., Aug. 3.—The first serious trouble in the Amalgamated strike occurred here this morning when one hundred strikers surrounded a boarding house where six non-union men are living. The men swarmed into the yard and were met by the boarding house keeper who held them at bay with a revolver. Several shots were fired and stones thrown but so far as known nobody was injured. The non-union men are said to have fired the shots which caused the strikers to scatter, they rallied, however, and closing in on the non-unionists prevented them from going to work. The strikers who were mostly armed with clubs retreated when the police and mayor arrived. The excitement continues and trouble is feared.

New York, August 3.—The fifteen members of the Amalgamated executive committee who left Pittsburgh last night, arrived here this morning for a conference with Morgan and other officials of the steel corporation.

The conference is to clear up the strike and get a closer understanding of the conditions surrounding the proposition of Morgan to settle the strike.

Before the conference began a member of the committee speaking for the conferees said that he had the utmost confidence in President Shaffer.

The conference was held in the steel corporation offices. Before entering Shaffer said he felt confident the outcome of the conference would be satisfactory to all concerned. But he refused to enter into the discussion of the status of the settlement negotiations.

President Schwab received the party cordially and then the doors were barred. Morgan was not present when the conference began, but arrived soon after.

The conference ended at twelve forty. The strike is not ended. The Amalgamated men decided to hold a conference to determine whether or not to resume the conference with trust officials.

## LARGEST RAILWAY DEPOT IN WORLD

Plans for Central Station in Chicago to Cost \$40,000,000 Approved by Eighteen Roads.

Chicago, Ill., August 3.—Plans for a grand central station to be used by all of the railroads entering Chicago for both freight and passenger purposes, costing \$40,000,000, have been agreed upon by the city council's special committee and representatives of the different roads. The station which is to be the largest in the world, will cover the territory from Harrison to Twenty-second street, and from State street west to the river, or an area of six blocks in width and thirteen in length. The plans have been drawn up and are now in the hands of Superintendent Sims of the Pennsylvania railroad.

The plans provide for the handling of passengers and freight. The freight trains will enter and leave by subways. The passenger trains each road will have its separate divisions wherein to run its trains and transact its business. Bridges will be constructed across the Chicago river to make the place accessible to all roads.

## PEACH CROP IS IN PERIL

Much-Favored Yellow Appears in the Fruit Belt of Michigan

St. Joseph, Michigan, August 3.—Owing to the hot weather that prevailed in this vicinity during the month of July the much-favored yellow has appeared in orchard after orchard of the La Grange fruit district, a few miles east of Benton Harbor.

The yellows was imported into this section of the fruit belt through affected nursery stock. Where commissioners have been appointed and made semiannual inspections of orchards they often found affected trees and ordered them removed, but in many cases the inspector's orders were not observed by the fruit dealers and the trees remained in the ground until entire orchards in nearby districts had been subjected to the disease.

## AN EXPLOSION KILLS SIX.

Blast Slays Workmen Near East Las Vegas, N. M.

East Las Vegas, N. M., Aug. 3.—Word was brought to this city by Thomas Worrick that a terrible explosion had occurred at Contractor Montgomery's grading camp on the Rock Island grade, about seventy-five miles from this city. It seems that the blast which was set by the laborers who were working on the grade exploded prematurely, killing six men and wounding others. The men killed are: Francisco Lopez of Las Vegas, Elias Rael and Pablo Lucero of Santa Fe, Theodore Torres of Guadalajara, Mexico, and two others whose names could not be learned. Calisto Gurule, also of this city, was wounded in the shoulder seriously, but not fatally. Francisco Lopez, who was killed, has lived in this city for a long time. He was sixty years old and leaves a wife and two children, one of whom is a teacher in the city schools.

## VOSE AND DEMOSS PLAY THE FINALS

Golf Contest at Milwaukee Settles Down to Same Two That Played in Janesville.

Milwaukee, Wis., Aug. 3.—The indications are at this writing that Hamilton Vose of Milwaukee will win the premier event of the tournament, the country club cup, as he ended with six up in his match against J. M. S. Demoss, the score being Vose 87 and De Moss, 100. It is admitted that Vose will win. J. M. S. Seller of Glenview is ahead of George A. Thorne of Glenview for the consolation cup, 85 to 88, but they still have eighteen holes to play.

It is a curious circumstance that Hamilton Vose, of Milwaukee, and J. S. Demoss, of Green Lake, who met in the finals for the Wisconsin Championship cup in this city July 20, should meet again today in Milwaukee cup.

At Janesville the tournament was restricted to members of the state clubs; at Milwaukee it was open to all, and many of the best players in the west, started out in the qualifying rounds for the several cups. That Vose and Demoss are first class players cannot be disputed and both have plenty of nerve to pull them out of a trying position. Should De Moss succeed in defeating Vose today he will return the compliment handed him by Vose on July 20 in this city.

In speaking of the event E. J. Ryan of Chicago says: "The outcome of the semi-finals certainly vindicates the Janesville tournament, as many of the crack Milwaukee players may have said at the time, 'Oh, if I had been up there the result would have been different.'"

"But they have all participated in this tournament, and they gradually fell by the wayside, and it is only to conclude that had they been at Janesville and played for the championship the result would have been the same."

In consolation event Chester Brewer, was the only Janesville player to last after the first round of match play. He was defeated in the second round yesterday morning by L. W. Nieman of Milwaukee, who went down in the semi-finals yesterday afternoon before the superior playing of J. M. Sellers, of Glenview.

The result of the play is that the best men among those who qualified for the two cups are left to play the finals will be at thirty-six holes. Vose and Demoss will play for the Milwaukee cup and Sellers and Thorne for the consolation.

The Milwaukee course while not a new course to most of the Janesville players was a distinct change. Frowning cap bunkers confronted the player at every drive and nearly all of the greens are protected by them. In some places pit bunkers were placed so as to catch a shot that was not absolutely perfect and hazards bounded the course on all sides to catch out of bound shots.

At first these bunkers loomed up at the eyes of the Janesville boys, who only have two bunkers on their course and neither of them had ones. However they soon got used to the looks of them, and carried them like veterans.

The putting greens in Milwaukee are all level and looked like pieces of green velvet carpet. A ball started right would certainly go to the hole. The Janesville players used to playing over greens as fast as lightning and as rough as can be, were at loss for some time and were most always short in their putts. They soon caught on and put up fairly decent games in the qualifying round.

The Mississippi club hope next year to have the grounds in better shape and have a course equal to Milwaukee.

## Work on Corn King's Books

Chicago, August 3.—Work on the Corn King Phillips books continues and a statement is promised Wednesday. Immediately thereafter if the firm is solvent, it will resume business.

## Find a Tooth in Appendix.

Knoxville, Tenn., Aug. 3.—Physicians at Walnut Grove made an unexpected discovery while operating on Robert Loveday. He had been suffering intensely for years and a consultation resulted in a decision that his trouble was appendicitis. After cutting to the appendix a large pus cavity was found and in this a tooth that Loveday swallowed sixty years ago, when 7 years of age. The tooth was removed and Loveday is recovering.

## MAY INVOLVE UNITED STATES; MUST KEEP PANAMA ISTHMUS OPEN

Uncle Sam Prepares to Rush War Ships to Venezuela Waters—South American Republics Harried by Rebels and Ready for War with Each Other.

Washington, D. C., August 3.—The crisis in the affairs of Colombia and Venezuela is serious. The state department here is arranging with the navy department to rush a warship to those waters to protect American interests in case the situation grows worse.

Reports from the neighboring republics are convicting and scarce. The legations here fail to clearly understand the situation. The Colombian revolutionists, under General Uribe-Urbe, are reported marching toward Bogota. The Colombian invaders under Dr. Galvarias, are reported as still harassing the Venezuelan army.

The possibility of war between the two republics is attracting considerable attention in diplomatic circles. Should war actually result the authorities in each country would not only have to deal with their domestic foes, as each now has civil war on its hands.

Neither the Colombian nor the

Venezuelan Legation here has much direct information and the cable reports are exceedingly conflicting. The officials at the Colombian legation are at a loss to understand the report of President Castro's declaration of martial law on the ground that his country is being invaded. The revolutionists, headed by Dr. Galvarias, who crossed the Venezuelan border from Colombia, where he had taken refuge, is said to be in no sense an invasion by Colombians. Dr. Galvarias belongs to the party of Andrade, who was overthrown by Castro, and it is stated in diplomatic circles that he is simply heading a rebellion of Venezuelans against the latter's authority.

A cablegram has been received at the state department from the United States consul at Colon stating that if the present revolutionary troubles become more aggravated traffic across the isthmus will surely be interrupted. The United States government is bound by treaty to keep this traffic open to the world.

## BIRTH DAY OF GENERAL MILES

Age of Retirement Reached, But He Probably Will Remain Head of the Army.

Washington, D. C., August 3.—Lieutenant Nelson A. Miles is 62 years old today. This is the age of retirement and, under the law, he may ask at any time to be placed upon the retired list.

If he does not wish to do this the matter rests with the president, who may retire him at will. What course will be pursued in the case of General Miles is not definitely known. His friends say he has no intention of retiring, and the probabilities are that President McKinley will take no action in asking him to do so.

## MOB HANGS A MURDERER.

Negro Confesses Crime and Loses His Life in Lee's, Ala.

Birmingham, Ala., Aug. 3.—Charley Bentley, a negro, confessed to the murder of "Jim" Vann, alias Williams, a white man, and was hanged by a mob in Leeds, St. Clair county, today. The murderer's body was riddled with bullets and left hanging to the limb of a tree. The coroner's jury had just returned a verdict fixing the responsibility of the murder on Bentley. The murder was committed early in the morning while Vann and his wife and child were asleep in a camp three miles from Leeds. Vann's skull was crushed with a large rock and his slayer then grabbed Mrs. Williams around the throat, but she screamed for help and the negro ran into the woods. Farmers living in the vicinity of the place answered the appeals for help and began a search for the murderer. By a hole in the bottom of Bentley's shoe they followed his tracks. He at first denied his guilt, but confessed when taken to the tree to be hanged.

## SECOND REGIMENT AT CAMP DOUGLAS

Troops Will Begin to Arrive This Afternoon, and Everything Is in Readiness for Them.

Camp Douglas, August 3.—The Second regiment, Wisconsin National guard, will open the annual encampment of the Wisconsin troops at Camp Griffin today. The regiment, under command of Colonel Nathan E. Morgan, of Appleton, will arrive at 3 o'clock this afternoon on two special trains, over the Northwestern line and will proceed at once to the range, where it will pitch camp and get settled for the week's work.

The regiment will post guards immediately upon its arrival, and will hold the regular guard mount immediately after mess, at 6 o'clock. The camp is all ready. Sample tents have been pitched at the head of each row, and the mess tents and staff quarters are all ready. The troops will have little to do on their arrival except to pitch their tents, fill their ticks and draw blankets, overcoats and rations. The Second has always been able to make camp quickly and it is expected that he camp will be in perfect order when the call is issued for dress parade at 7:30.

## Woman Eats Poisoned Fruit.

Battle Creek, Mich., Aug. 3.—Mrs. Clara Wandell, an attractive widow, is at the point of death from eating peaches poisoned with strychnine. This morning she found a bag of fruit on her doorstep and a note reading: "Expressly for Clara." She ate them and grew critically ill, being removed in a police ambulance to Nichols' hospital. Doctors found several grains of strychnine in each peach, placed in artificial holes which were so constructed as to look natural. The woman had a falling out with a lover, Edward De Forest, and circumstantial evidence caused his detention by the police this afternoon. He denies knowing anything about the poisoning.

## HOBSON WILL NOT ALLOW ANY KISSES

Osculating Hero of the Battle of Santiago Dodges the Pretty Girls at Monona Lake.

Madison, Wis., August 3.—Captain Richmond Pearson Hobson, the much-kissed hero of Santiago harbor, wouldn't stand for any osculatory demonstration at the Monona assembly yesterday afternoon. After his address on the American Navy before 5,000 people in the big auditorium a little actress by the stage name of Bonnie Mae, but whose right name is Mrs. Taber, rushed up and tried to kiss him, but he balked.

Later, when he held an informal reception, several pretty girls attempted the same thing, but he sidestepped again. He simply wouldn't stand for it. The dear girls were deeply disappointed, and wanted to know what he came here for, anyway.

## SULTAN WELCOMES CORBIN AT JOLO

Jolo, P. I., August 3.—Adjutant General Corbin and his party arrived yesterday and spent the day here. They found that the Sultan was fighting the rebellious Dato Calve and Joaquin, fifteen miles away in the mountains.

Couriers were dispatched to notify the Sultan of the arrival of the party and the travel-stained Sultan and his court returned in the evening. There was a reception to the visitors by the ruler of the archipelago and his court, with a guard of honor of 100 men armed with Mauser rifles. The latter remained outside the walled city.

The Sultan reports that he expects the early subjection of the rebellious Datos. They will close a comic war in which only forty men have been killed in two months' fighting. The trouble does not concern the Americans at all, being entirely confined to the Moros, over whom the Sultan will soon regain control.

Adjutant General Corbin presented a handsome pair of binoculars to the Sultan, who immediately returned to his camp.

## SAY KRUGER IS COMING SOON.

Correspondent Reports Date of Sailing Near End of August.

London, Aug. 3.—According to the Brussels correspondent of the Morning Post, Mr. Kruger's departure for the United States is fixed for the end of August.

"Mr. Kruger's American tour," says the Brussels correspondent of the Daily Mail, "will include visits to New York, Philadelphia, Boston, Washington and Chicago."

"Negotiations are about to begin for his reception by President McKinley."

## CHICKENS HATCH IN AN EGG CASE

In Mount Sterling, this state, five little chickens are to be nourished carefully and nourished as souvenirs of the record breaking heat of July. To look at the chickens one might suppose they were as other chicks but this is not so. They may be ordinary in appearance and actions they were neither hatched in the good old fashioned way nor in a new fangled incubator. They first saw the light of day as it filtered through the cracks in a case of eggs consigned to the firm of O. A. Sherwood & Co., of Mount Sterling. When the case was opened, there on the top of case were nine chickens. Four were dead but five were as lively as if they had come into existence in the orthodox manner. So amused were the members of the firm who had purchased the case of eggs that they immediately decided to raise the chickens as reminders of the hot spell.

This story is not a pipe dream nor yet a flight of imagination. It's truth is vouched for by F. F. Nicholson, the genial traveling man, who says that he happened to be present in the Mount Sterling store when the eggs were unpacked and saw the

chickens in the top of the case with his own eyes.

## SHELDON REFUSES CHICAGO.

Topeka Pastor Will Not Accept Call to the Wicked City.

Chicago, Aug. 3.—The Rev. C. M. Sheldon, the preacher-author, has declined a call to the pastorate of the Union Park Congregational Church of Chicago. Although the salary offered is much in excess of that he is receiving, Mr. Sheldon announced yesterday at his home in Topeka that he would not accept. "I have decided to make my home permanently in Topeka," he said. "I will not accept this call or any other that may be made. Some months ago Mr. Sheldon refused the pastorate of a large church in London, England, at a salary of \$10,000 a year, while at that time he was receiving but \$1,800 a year in Topeka. The church in that city has since raised his salary. He also receives a large income from the sale of his books.

## ROOSEVELT AND YATES FOR 1904

That Rallying Cry, It is Alleged, Will Be Raised Throughout Illinois Very Soon.

Chicago, August 3.—"Roosevelt and Yates" for 1904. That rallying cry, according to the signs of the times, will be raised throughout the state by the Yates faction in a month or two, or as soon as the preliminary pipe-playing is finished. Gov. Yates is entertaining the presidential bee socially and very cordially. Some of his best friends vouch for it. They deem it an ideal combination—the popular idol from the greatest eastern state and the young governor of the greatest western state, the whole making a "Young men's ticket."

Thaplins embrace the use of Roosevelt and Yates slogan to win undisputed control of the party organization in Illinois next year, election of their choice for United States senator in place of William E. Mason, and triumph in 1904 on a great wave of popular enthusiasm.

## BIG CITY RISES IN A SINGLE NIGHT

Under Magic of the Boomer Lawton, Oklahoma, with 10,000 Inhabitants, is Formed.

Fort Sill, O. T., August 3.—In a single night the town of Lawton has sprung into existence with a population of 10,000 people. Today there are streets and avenues lined with tents and 400 business houses are open where yesterday there was nothing but the unbroken prairie. Residents of the Fort here rubbed their eyes when they awoke this morning and looked upon the new city which had grown while they slept. It seemed like the realization of a tale from the Arabian Nights and the industry of thousands of home seekers was the genie which had performed the magical trick.

The residents of the new town are made up of those who were unsuccessful in the land lottery. Having failed to draw homes, they settled down upon the prospective town site determined to await an opportunity to buy them at the sale of lots next Tuesday.

Over 3,000 Comanche Indians are camped in the vicinity. They have pitched their tents on the Indian school reservation, and are here to get their last payment of grass money under the terms of their old contract. Each Indian will receive \$40, and they will have an aggregate of \$120,000 to spend.

## THREATENS TO WIPE OUT INDIAN TRIBE

Advices Say That Half of the Black River Falls Winnabagoes May Die of Small Pox.

La Crosse, Wis., August 3.—Private advices and messages to Dr. F. C. Suiter, member of the State Board of Health, state that unless something is done to stamp out the small pox which has again attacked the tribe of Winnabago Indians on the reservation near Black River Falls, and scattered on private farms between here and La Crosse, half of the one great tribe will be wiped out in a short time.

## WISCONSIN CROP CONDITIONS

Estimate Just Finished by a State Agricultural Paper.

Racine, Wis., Aug. 3.—The publishers of The Wisconsin Agriculturist have just completed their estimate of the condition of Wisconsin crops on August 1. The average condition as compared with a full or normal crop, is estimated by the Agriculturist as follows:

Wheat..... 84 Clover..... 81  
Spring wheat..... 85 Timothy..... 72  
Rye..... 87 Pasture..... 64  
Oats..... 78 Peas..... 64  
Barley..... 78 Potatoes..... 64  
Corn..... 76 Apples..... 46

## END IS NEAR FOR DOWAGER EMPRESS

Berlin, August 3.—The Dowager Empress Frederick is in a critical condition and the end is near. In consequence of his mother's condition the kaiser has cancelled his engagements for the reception to Waldersee which will now be a tame affair.

## EXTEND RURAL FREE DELIVERY

Will Ask Congress to Give \$7,000,000 for That Purpose.

## A BETTER SERVICE

County Service is the Only Form That Will Give Entire Satisfaction.

## MORE MONEY NEEDED

Washington, D. C., August 3.—Congress, at its coming session, will be asked to appropriate \$7,000,000 for maintaining and extending the rural free delivery service. The appropriation for the present year was half that amount, but already it is apparent that the funds available will not begin to meet the demands that are being made from every quarter.

The department is handicapped to extend what is known as county service in many communities that are adapted to its inauguration. If the appropriation asked for is granted, a thorough examination will be made of the rural system, and in most counties that are now thickly supplied with rural free delivery, the department will authorize a county service which will necessitate the establishment of a few additional routes, when the service of the entire county is reorganized.

It is claimed that a county service is the only form of rural free delivery that will give entirely satisfactory results in thickly settled regions.

In the establishment of a county service no regular formula is followed and no standard as to the number of routes to be employed is fixed. Their number depends altogether upon the size and condition of each individual county. Where a county is generally covered by rural routes, but where a few sections are not provided for, it is proposed, when sufficient funds are available to give that county complete service.

With the funds that are now available, it is almost impossible to further extend the new form of service, because of its cost, and the apparent discrimination that would result. An appropriation of \$7,000,000 would not only insure a general extension of the system under the old method, but would enable the department to establish county service in practically every county which is thickly populated enough, and now sufficiently supplied with rural service to warrant the additional expenditure.

The pressure on the department for the establishment of additional individual routes in states and counties that have heretofore had little rural free delivery is so great that little progress has been made with investigations in several localities suggested for county service.

In view of all the facts, the department will be forced to extend practically all of the appropriation of the last congress in the establishment of isolated routes, leaving the more satisfactory service until a larger appropriation can be had.

## AN ACTOR BECOMES INSANE AT ST. PAUL

St. Paul, Minn., August 3.—Thomas Mallay, an old time actor, who had for years played in "Uncle Tom's Cabin," was today committed to the Rochester Insane Asylum.

Mallay had so much of Uncle Tom that it affected his brain, and now he imagines that Simon Legree is constantly pursuing him with bloodhounds.

It is not on record that he ever played Eliza in the piece, but he seems to have got the parts somewhat mixed.

## TRANSPORT ADRIFT IN PACIFIC

The Lenox Breaks Her Shaft and Is Rendered Helpless.

San Francisco, Aug. 3.—The United States army transport Lenox, due from Manila, is drifting somewhere off Port Harford under jury rig. The oil steamer George Loomis arrived from Ventura today with seven of the passengers and crew of the transport whom she picked up yesterday. They report that on Thursday, July 25, the transport's tall shaft broke and ever since the steamship has been moving slowly down coast in a southeasterly direction.

The Lenox is short of provisions and the men, who were sent out in an open boat to bring assistance, state that the doctor was about to order the slaughter of two horses in order to get meat with which to make broth for the sick. The soldiers and sailors were catching sea fowl and making soup of them.

As soon as the news reached the transport wharf Captain Batchelder ordered the tug Slocum to get ready for sea. She was provisioned and coaled and supplies for the Lenox were put aboard. In a few hours she was on her way.

Mrs. Fred Vankirk and children, who have been visiting relatives in this city and vicinity for some time past, will return to their home in Portland, Oregon, Monday.

## Just Between Ourselves

Dr. John Mitchell, in the Harper's Bazaar, says a few things that might be read with profit by every man and woman in this fair country of ours with its mania for rush and hurry and for living at fever heat. America is maturing in all directions and in time she may lose some of the youthful exuberance that has enabled her to reach a foremost place in the world almost before she is out of the long, lace-trimmed garments of infancy. There is no life so strenuous as American life and if we must go on the gallop to keep up with the procession we must do as all thoroughbred race horses do, save our energies for the race and take good care of ourselves when the race is not on. Really, it isn't the great amount of energy which Americans put to good service that we need to deplore. It is the energy that is frittered away uselessly from a foolish idea that every faculty we own must be constantly in action. A species of nervousness results and the numbers who are afflicted by it are alarmingly many. Dr. Mitchell's words are timely and sensible, and here they are:

"When you are asleep it is to be hoped that you are still. Few people are when they are awake. If one observes the crowds in the streets, it is curious and most disagreeable to see how small the number is who are not constantly making grimaces and working their faces or jaws in some manner. I have heard it said that it was bashfulness that caused this, but it has not been my observation that bashfulness was so widely distributed among Americans; besides, how does twisting the face help to keep one in countenance? No, it is not bashfulness; it is misdirected nervous energy, which ought to be aiding the movement of their legs or getting stored up somewhere in the central nervous reservoirs for future use."

"Learn to keep still when you rest; when you move, move with the part of the body needed; do not waste your force by walking with your arms and face as well as with your legs. If circumstances force an unusual and fatiguing amount of exertion upon you, break it now and then by periods of absolute rest. No matter how brief they are, they will be useful if you make them complete and perfect in the way described. This is true of mental as well as bodily exertion. A minute or two minutes of quiet with closed eyes if possible, with your tension relaxed and the gearing of the machinery thrown off for the moment, will help and refresh you greatly. Here, again, more may be gained if the ability to relax mentally can be secured in a fashion similar to the withdrawing of muscular tension. Learn to empty your mind when not using it."

As a rule Janesville people are noted for their hospitality but there are exceptions and one came to light recently. Generally, when a lack of hospitality exists, it is a wife who

objects to her husband bringing home guests for dinner without any warning on wash day. In this case, however, it was the husband who opposed the company. What was more, he decided there should be none of it in his house while he paid the rent. The wife, on the other hand, is the embodiment of hospitality and delights to entertain. The other day she had a visitor come to see her from another city but when she and her guest reached her home and behold, they had been locked out by the determined and company hating husband.

A little fellow over whom a few summers and winters have passed, only to make him more fondly idolized by proud parents whose only son he is, and by four grandparents who outlive each other in attentions to the little man, was taken for a ride on the merry-go-round the other evening. The delights of the treat in store for him had been eloquently dwelt upon in order that he might fully appreciate it. He became very familiar with the name merry-go-round, but if his mind was puzzled over at he gave no sign. Evening came and he had his ride. He enjoyed it too, heartily, and when he went home he was full of childish enthusiasm. His grandfather asked him how he liked the merry-go-round and then he bubbled over. "Why," he said, "we went round and round and round all right enough but I didn't see Mary at all unless she was that little girl in blue that rode on the horse right next to me."

Queer fancies they are which get into the noddles of little ones and give them the quaint ideas with which they often amuse and surprise us. Probably they have more curious ideas still that they never voice. One little maiden on being taken to Sunday school for the first time came home full of a desire to talk about her new experiences.

When asked what she had learned she said that the teacher told her about "our father. You know about our father, don't you, mamma?" the little one continued in her sweet, lisping notes and the mother smilingly said, "Why yes, dearie. His name's God, you know." "Oh no, no, mamma," the little one cried; "the our father I know isn't God. That isn't his name at all." The young mother tried to convince her hopeful, but all in vain. The child was positive and perhaps a little shocked at her mother's ignorance. She persisted in her statement that God wasn't "our father." Finally she declared positively "Well, but I know mamma that our father's name is not God. Why, his name's Hal-lowed." Then the mother understood. I told the story to a prominent gentleman the other day, but he very evidently failed to grasp the point. His mind was not as quick to make connections as the wonderful child mind had been or he was not as familiar as he might have been with the beginning of the Lord's prayer. L. F. B.

## Tobacco Notes.

Tobacco growers are not quite so disconsolate as they were two weeks ago. The prospects of saving the tobacco crop from a total failure are very good and now that the long continued drouth is broken there is good reason for expecting at least 50 per cent. of a crop in the state if the weather continues favorable.

Last Sunday night's rain was of the most benefit in this vicinity. Of the one and three-quarters inches of rain which fell not a drop was wasted. It soaked into the ground thoroughly and did more good than the heavy showers which preceded Sunday's rain. The showers had accomplished their mission in softening the ground and preparing it for the reception of the heavy soaking rain which followed.

The rain was of great value to many crops but it was the salvation of tobacco hopes. The earliest planting give but little promise of amounting to anything but have every appearance of having been stunted beyond hope of recovery. The medium and later set plants are growing rapidly however, and some good rains in the near future will help them along amazingly.

A week has passed since the drouth

was broken throughout the tobacco growing section, during which quite gentle rains have fallen and cooler weather following, has all tended to give a much more encouraging prospect for the growing crop, says the Wisconsin Tobacco Reporter. The fields that survived the heat and drouth are coming forward now with a surprising growth and need only suitable weather to make a harvest. The maturing, of course, will be considerably delayed beyond the usual harvest time, but it can be put down as a certainty that the crop will in any event prove a vast deal more than a total failure. The growers are now giving their fields renewed attention and are bound to make the best of the conditions that are present.

Business in cured leaf is well night at a standstill at local market points. C. F. Tallard received 23,000 pounds of Minnesota leaf this week, recently purchased. What old stock there is moving is mostly confined to small lots to manufacturers. The shipments out of storage reach but 500s for the week from this station to all points.

Continuing under the head of "Note Book Sketches" the Tobacco Reporter says that the most serious drouth that has ever affected the tobacco growing sections of this state has at last been broken. Rains of a general nature covering the tobacco belt have fallen during the week and in some localities the fall was so abundant as to thoroughly soak up the soil and give the growers hope that some sort of a tobacco crop will yet be harvested. In a few sections the initial storms were very severe, amounting to almost a tornado, which blew down and demolished a large number of tobacco sheds and farm buildings—possibly a hundred in the towns of Pleasant Springs, Deerfield and Channahon. Hall also accompanied this storm that riddled many of the early fields of tobacco in its track. Enough rain has fallen in localities in the tobacco section to ensure the maturing of the tobacco that had survived the drouth and hot, burning winds. What percentage this will amount to of the original plantings is yet hard to determine. It seems like a safe estimate from the information at hand to say that possibly one-half the plants originally placed in the fields throughout the state are living, and under favorable conditions from this on may yield something of a harvest.

There has been a great improve-

ment in tobacco fields since the drouth was broken nearly a week ago. As has been before stated the hope of a harvest lies in the medium set fields—those which had made but little progress during the dry weather. Their growth now is amazingly rapid and with plenty of moisture stand to make a yield of quick grown binder leaf. The weather conditions, of course, needs to be favorable alike before the harvest and during the curing stage to accomplish this desired result. Tobacco is such a quick growing plant that scarcely a season passes that does not furnish some surprises to those who watch the fields mature. The elements way deal with it unkindly, drouth may pinch and the hot breath of a burning wind wither it, but give it half a chance and it will come up smiling when most other crops are all apparently past redemption. No product of the farm can be so starved and neglected by the husbandman and still yield such results. No plant is more tenacious of life and responds more willingly to the reviving effects of moisture and tillage than tobacco.

### BASE BALL NOTES.

The Eastern league plays with American league rules, although under the National agreement.

Frank Kitson is now winning every game he pitches, and Ned Hamilton no longer talks of chasing him. Cincinnati, through the agency of Watkins, is said to have corralled Wyatt Lee and Ralph Miller for next season.

McIntyre, the trial outfielder, of the Athletics, is only batting about .225. Back to the woods if another man can be found.

Fox, the Red second baseman, continues to put up as fine fielding as any man alive—but he persists in doing no batting.

McPherson, of the Easton (Pennsylvania) team, signed by New York, is the same pitcher Mack of the Athletics tried but let go.

New York had an odd fielding record yesterday—24 put outs and 22 assists. Lots of men must have been run down between bases.

Muggsy McGraw thinks Charlie Somers should be elected president of the American league in place of Ban Johnson. Warm ozone.

Buelow has recovered enough to get into the game again at New York and is now playing third regularly in a somewhat shaky fashion.

Bobby Lowe's third base play is something marvelous. Great work for an old Roman who has been anchored on second for so many years.

Fred Tenney returned to duty at Boston yesterday, and Dick Cooley went to center field, displacing Hamilton. Hammy's day is about over.

Burnham of Buffalo is among the many managers hunting for players. He fined Capt. Atherton \$25 and suspended him for indifferent playing.

Jacklitz, Philadelphia's new catcher, has the poorest fielding record among the National league backstops. They like him down there at that.

Cincinnati outbatted Chicago 2 to 1—ten hits to five—made just half as many errors—two to four—and yet lost out. That is the luck of baseball.

Andrews of Buffalo, and O'Hagan of Rochester have been suspended by President Powers of the Eastern league for engaging in a fight on the ball field.

Tom McCreery is not enjoying the best of health. He says it is malaria. His friends declare it is the result of indulging in too many big black cigars.

New York is on the pan for fair. The ex-Giants are going down hill as fast as the schedule will let them. They will bring up below Chicago in a week or two.

Manager McPhee received a letter from Capt. Tommy Corcoran yesterday. The field leader of the Reds is slowly recovering his strength, and expects to join the team next week. He is badly needed.

Napoleon Lajoie has so far fooled the wise ones who expected to see him flop out of the 400 class. He even boosted his record yesterday by making four hits—a single, double, triple and home run.

Skopec, the Chicago pitcher, released by Comiskey to the Little Rock club, was badly injured the other day. He was hit in the head by a thrown ball and it is said his condition is quite serious.

### A Minister's Good Work.

"I had a severe attack of bilious colic, got a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy, took two doses and was entirely cured," says Rev. A. A. Power of Emporia, Kan. "My neighbor across the street was sick for over a week, had two or three bottles of medicine from the doctor. He used them for three or four days without relief, then called in another doctor who treated him for some days and gave him no relief, so discharged him. I went over to see him the next morning. He said his bowels were in a terrible fix, that they had been running off so long it was almost bloody flux. I asked him if he had tried Chamberlain's Colic, Cholera and Diarrhoea Remedy and he said, 'No.' I went home and brought him my bottle and gave him one dose; told him to take another dose in fifteen or twenty minutes if he did not find relief, but he took no more and was entirely cured. I think it the best medicine I have ever tried." For sale by People's drug store and King's pharmacy.

### DESTRUCTIVE FIRE TODAY.

Barn and Contents, on Williams Farm—Total Loss.

Fairfield, Wis., Aug. 2—Fire this morning destroyed the large barn, and contents and four stacks of grain on the Henry Williams farm, half a mile northeast of this village. The place is occupied by Mr. Eugene Serl, who loses his year's crops and much machinery. Mr. Williams carried insurance on the buildings and on his portion of the grain, but with Mr. Serl the loss is total.

## INTER-STATE FAIR AT BELOIT AUG. 20

Preparations Are Being Made for the Coming Event—Farmer Has a Tale of Woe.

Beloit, Aug. 3.—[Special]—The first annual Beloit Inter-State fair is now only seventeen days away. All indications point to a most successful exposition. The various buildings, grounds are all in an advanced stage of completion and are models of their kind, and are said to be the best in the state, bar none. The track is in very good condition and is an ideal course, but the sandy nature of the soil makes a few good soaking rains necessary to put the track in good condition for speedy racing. Several strings of horses are training on the track. Secretary Pollock has engaged quite a number of excellent performers among whom are Cole and DeGoss, slack wire equilibrists; the Cleos in trapeze performances; the four Johnsons in ground and lofty tumbling; a trick bicyclist and the famous colored giants' quartet. Applications for space for exhibit have been received from far and near. A different band of music will play each day.

A farmer by the name of Sweeney, from near Caledonia, was in town Thursday with a tale of woe which he poured into Chief of Police Appleby's ears. It seems that a fellow made his appearance a short time ago in the neighborhood with a bunch of pretty samples of cloth and claimed to be an authorized agent of a Rockford tailoring concern employing 160 tailors. He offered suits off the samples at ridiculously low prices and only stipulated a payment of \$2 down—the balance to be paid upon the receipt of the goods. Nearly everybody in the neighborhood paid their little \$2 and the stranger departed for other green pastures. After a reasonable length of time had elapsed inquiry was made in Rockford and it was found that the concern mentioned by the swindler only four tailors instead of 160, and the firm disclaimed any knowledge of the self appointed agent.

Chief Appleby couldn't do a thing for Farmer Sweeney, as the fellow has probably put a good many miles between him and Caledonia. He realized something like \$75 by his little game.

The Beloit Water Works was assessed on a valuation of \$100,000 by the board of review which closed its labors Thursday. This is an increase in valuation over last year of \$30,000. Mr. C. B. Salmon of the company made quite a protest at the figure but finally accepted the inevitable.

The Twenty-second Wisconsin Infantry will hold its annual reunion in Beloit on September 5. A great time is expected as it has been the hope of the B and I boys to have the regimental gathering here some time. Comrade Mosely went to Racine this week and perfected arrangements for the reunion.

The Beloit ball team will play the Durand, Ill., team at that place Sunday.

Harvey J. Means and Miss Emma Kirchner, both well known young people of the city were wed on Thursday night.

Prof. E. G. Smith of Beloit college has been called to Baraboo to inspect the water works system of that place it being a very healthful condition.

The laws of health require that the bowels move once each day and one of the penalties for violating this law is piles. Keep your bowels regular by taking a dose of Chamberlain's Stomach and Liver Tablets when necessary and you will never have that severe punishment inflicted upon you. Price, 25 cents. For sale by People's drug store and King's pharmacy.

Excursion Rates to Edgerton via C. M. & St. P. Ry., Aug. 7th, good to return until Aug. 8th. Account picnic.

A lame shoulder is usually caused by rheumatism of the muscles, and may be cured by a few applications of Chamberlain's Pain Balm. For sale by People's drug store and King's pharmacy.

Reduced Rates to Freeport, Ill. via C. M. & St. P. Ry., Aug. 3d to 9th, inclusive, good to return until Aug. 10th. Account races.

Excursion Tickets to Race Meet at Freeport, Ill. Via the Northwestern line, will be sold at reduced rates, August 3 to 9, inclusive, limited to return until August 10, inclusive. Apply to agents Chicago & Northwestern R'y.

## Catarrh

The cause exists in the blood, in what causes inflammation of the mucous membrane.

It is therefore impossible to cure the disease by local applications.

It is positively dangerous to neglect it, because it always affects the stomach and deranges the general health, and is likely to develop into consumption.

Many have been radically and permanently cured by Hood's Sarsaparilla. It cleanses the blood and has a peculiar alterative and tonic effect. R. Long, California Junction, Iowa, writes: "I had catarrh three years, lost my appetite and could not sleep. My head pained me and I felt bad all over. I took Hood's Sarsaparilla and now have a good appetite, sleep well, and have no symptoms of catarrh."

**Hood's Sarsaparilla**

Promises to cure and keeps the promise. It is better not to put off treatment—buy Hood's today.

**J.M. BOSTWICK & SONS.**  
THE BIG STORE 20, 22, 24, 26, 28, S. MAIN ST., JANESVILLE, WIS.

Generally fair tonight and Sunday, cooler.

## UNDISCOVERED RICHES.

Two young men were standing in front of the pavilion in Oklahoma Territory, the other day, where the wheel of fortune was to decide who should draw the lucky numbers.

One hundred and sixty-five thousand tickets, representing as many expectant and hopeful people, shared in the drawing, and thirteen thousand and land prizes, of greater or less value, was the limit to be divided.

The boys had gone from comfortable homes in an eastern state. One of them, a farmer's son, the other a clerk in a good position, but both restless and filled with the spirit of adventure.

They had waked expectantly until the last batch of five hundred tickets were placed in the wheel, seeing thousands turned away disappointed, and when the last name was called, and the last number recorded, they looked into each other's faces, and John said to his companion:

"Well, Fred, you and I have drawn a blank and we are a pair of consummate fools, three thousand miles from home, and out of a job, and plenty of good walking ahead of us."

"Yes," Fred said, "you're about right, John, and the worst of it is, the old gentleman said before I left home: 'There's plenty of land and a gold mine right in Crawford county, if I'd look around and discover it, but I thought he was an old fogey.'"

The boys were stranded, as thousands of young men, and an army of older ones have been, in a mad desire to get something for nothing, forgetting that the prizes of life are most of them discovered so close at hand that they are frequently overlooked.

There has never been a time in the history of the country when the spirit of speculation was more pronounced than at the present time.

The Klondike and Cape Nome fever has scarcely subsided, when the Texas oil fields and the Oklahoma craze engulf a great army of men.

Many of these would-be speculators are not mere adventurers. Like the two boys at the land drawing, they are trying their first venture with the wheel of fortune, inspired by an ambition to get rich quick with but little invested.

There are thousands of young men in New York today, who anticipated their salaries for a year in bond speculations a few weeks ago. Every last one of them expected to win, and almost every last one of them lost.

There is only one royal road to success, and that is by faithful, persistent, untiring work.

While every young man should be full of ambition, he should, if possible, select his life work and field of operation before he reaches the age of twenty-five, and once selected, he should settle down to dig out the treasures that time and well directed energy have in store for him. It may be at home, under the direction of a father, but better, as a rule, among strangers, where contact with the rough and tumble of life, knocks off the corners, and rounds up sturdy character.

The opportunities of life are not confined to location, and every channel of work is full of them. The boy on the farm who invests intelligent thought and muscle, soon discovers that the husbandman is honored with a high calling, and living close to nature he works out a destiny that wins success and finds in the winning contentment and real happiness.

At forty, when he looks over the well kept farm, and realizes that every acre blossoms because of the self-investment, with which he has enriched it, he wonders how he could have been tempted to leave it back in the years when clerkship and dress suit seemed so attractive.

The young man behind the counter, if he has an eye on the future, invests with his time, not only energy, but he is constantly looking out for the interests of his employer, and he soon discovers that the life of a merchant is broader than the life of a clerk.

Opportunities come to him, and in improving them, he finds himself in ten years behind his own counter, a successful business man. His winning was due to the fact that he discovered possibilities near

at hand and faithfully wrought out a destiny.

The young man in the factory or shop, toiling day after day, studies the character of old men who have spent a life time in the same employment, and whose earning capacity is less today than it was twenty-five years ago.

If his observation and ambition stop here, his future is not difficult to determine, but if his vision is broad enough, he discovers that other men have graduated from the same surroundings, and today are holding places of responsibility, and directing great industrial enterprises.

He is fired with new ambition, and forgetting time and self, every energy is bent to gain the top of the ladder. He wins because he discovered possibilities near at hand.

A few men succeed as adventurers, but the large majority fail.

The young man who selects his calling and field of operation, and stays faithfully by it, wins prizes that mean more than money. He wins the confidence of the people and the warm, close friendship of associates. He establishes a reputation for honesty, and builds a character that shines as a priceless jewel. He enjoys a good name, that is more to be desired than great riches. And all because he was content to build slowly but surely.

The era of speculation is a dangerous era. Better to work and wait than to plunge and be disappointed. The man who makes a fortune in the old fields is always well advertised, but the thousands that fail never come to the surface.

Beloit Free Press: Speaking of the "purity" of a nomination under a primary election law, there can be no harm in stating that James Grimstead, who was nominated for mayor of Louisville July 16, under such a law, declines to accept the nomination because of the impure way in which the primary was conducted.

Whenever a discovery is made plenty of men can be found who made the discovery years ago. There are physicians who have known Dr. Koch's theory for a long time, but failed to create the stir that gentleman has caused by the announcement.

It looks as though milliners were helping out teamsters in decorating the horse hats. This may make up for loss of patronage through the summer custom of ladies going without hats.

The heavy bombardment of the skies with mortars at Lincoln, Neb., failed to bring rain. Heavy bombardment had its origin at Lincoln, however, and perhaps the skies got used to it.

Rush Medical College has at last been won by the smiles and wiles of the pretty girl, but it has taken fifty years of wooing to win the old bachelor, and he may join Armour institute in regretting it some day.

The South African war resembles a French duel. An all day battle resulted in four deaths, and London is rejoicing over a brilliant victory—her soldiers saved a gun from capture by running four miles.

The Maine in Havana mud has given birth to a second Maine superior in size and power, which will probably never have the pleasure of revenge, for the Spanish torpedo.

With twenty out of twenty-six Chicago judges on their vacations—how many of the 125 prisoners ought to be allowed to take vacations at one time?

King Edward has offered several old castles for sale; he must have house cleaning as much as his American cousins.

Austria is as much excited over the birth of a boy to the heir apparent as Italy and Russia are over the birth of royal girls.

The summer style of Mississippi lynching has changed somewhat. Whole families are now strung up at the same time.

The Hon. Arthur Pue Gorman can now put considerable vim into the song, "Maryland, MY Maryland."

"Corn King" Phillips appears to have completely Joseph Letterized.

Praise for Whitehead.

John M. Whitehead of Janesville will make a most excellent governor for United States senator whenever the party and the people want him; whenever the state of Wisconsin has anything real big to give out Senator Whitehead is our candidate. —New Richmond Republican-Voice.

You can't speak, any praises too high for the Janesville man and conditions will in time bring him to

the front. But the "Milwaukee influences" never will. He has lately been "under consideration," we are informed, and the conclusion was that while he would make a prairie fire "run," he is too big and independent a personality to entrust with governorship. Mr. Whitehead will get to the front at the hands of the people, when he goes.—Madison Journal.

## For Speculative Purposes.

The Elkhorn Independent is of the opinion that the electric franchise sought by Janesville parties is for speculative purposes. It says: "Our city should never surrender her streets to a corporation which asks three years in which to complete an electric road. The franchise should require the road to be completed and cars to be run at regular intervals on and after July 1, 1902. While we agree with a majority of our good citizens that a franchise should be granted, the three years clause smacks of speculation which should be nipped at once. This whole country will be a network of electric roads within a few years. These systems will revolutionize transportation. Other and better companies may apply for the same franchise in three years. Probably will; and Elkhorn cannot afford to be practically tied up for that length of time for three years before completion."

## Men's Meeting at Y. M. C. A.

The men's meeting at the Y. M. C. A. building tomorrow afternoon at 3 o'clock will be a special occasion, being a substitute for the Francis Murphy league meeting which is usually held on the first Sunday in the month. Last Sunday a splendid meeting was held, the subject under discussion being the needs of the twentieth century. The meeting tomorrow afternoon will be along the same line when the discussion of Sunday's subject will be continued. The music at the men's meetings has been fine for some time past and the male quartet will have some excellent selections for tomorrow. There will be good speakers and an interesting meeting which every man in the city is urged to enjoy. Lemonade will be served.

## Teachers' Examination Today.

County Superintendent William Ross conducted a teachers' examination at the court house today, the examination being only in the higher branches of study required for a first grade certificate. Those who took the examination in the hope of securing first grade certificates were Misses Maxfield, Fish, Cassford, Muellenschlaeder, Nelthorpe and Cullen. Superintendent Ross conducted second and third grade examinations at Edgerton Thursday and Friday, and will hold examinations for the same grade certificates at Orfordville Monday and Tuesday, and at Evansville Thursday and Friday of next week.

## NEWS OF THE CITY IN BRIEF

Mrs. Loudon lost one of her best horses today, the animal's death being the result of brain fever. The horse was a great favorite with the family and the financial loss occasioned by his death is a serious matter to Mrs. Loudon.

T. Kenyon, a member of the firm of Marsh & Kenyon of Chicago, has been in the city for several days in search of chunks and draft horses weighing from 1,200 to 1,600 pounds. The kind of horses he is looking for is hard to find, but he expects to secure a carload or two.

The Ladies' Missionary society of Court Street M. E. church will meet with the president, Mrs. E. M. Poorman, 213 South Academy street, next Wednesday afternoon, Aug. 7, at three o'clock. All the ladies of the church are invited.

A party of young people from this city will attend a dancing party given at Hoard's Place, Lake Koshkonong this evening, and among those who are to go are Mr. and Mrs. Will Ruger, Miss Maude Nowlan and Messrs. Stanley Tallman, Howard Ruger and Albert Hoffmaster and Marvin Welch of Chicago.

## Two Fall to Their Death.

Pittsburg, Pa., Aug. 3.—William Wilson of Green Point, L. E., and Jesse Wilson of Pittsburg, employed on the Frick building in course of erection, were instantly killed at noon. The accident was caused by the sheering of a brace while hoisting a six-ton eyebolt. This made the derrick give way and the men were precipitated from the sixth to the second floor. A large number of workmen below narrowly escaped with their lives.

## Shoots Two and Kills Self.

Manti, Utah, Aug. 3.—Rasmus Anderson, aged 27, shot Miss Emily Campbell, aged 22, and P. C. Christensen, a stage driver, and then committed suicide. Miss Campbell had been visiting at Salt Lake and Anderson, a discarded sweetheart of the young lady, had inveigled her home by means of a forged message, telling of her mother's approaching death.

## Reports on Virginia Taxes.

Richmond, Va., Aug. 3.—The auditor in preparing a report for the constitutional convention has discovered that there are 95,000 white males and 8,000 colored males in Virginia who pay taxes on property valued at as much as \$300. He has also made the surprising discovery that more females than males pay taxes on that amount.

## Canada Stops Gas Supply.

Windsor, Ont., Aug. 3.—The dominion government issued an order prohibiting further exportation of natural gas across the Detroit river. This action will cause great hardship in many Michigan and Ohio towns, which will thus be left without supply of cheap fuel.

## J. McGregor Adams Weds.

New York, Aug. 3.—J. McGregor Adams, a Chicago millionaire, and Miss Edith MacGregor, well known in Brooklyn society circles, have been married. Mr. Adams is the president of the Adams & Westlake company of Chicago.

## SUGAR FACTORY AT MENOMONEE FALLS

The Wisconsin Sugar company has started actively the work of fitting its factory at Menomonee Falls with the machinery for manufacturing beet sugar, and it is expected that all will be ready by Oct. 1 for the production of saccharine matter from Wisconsin beets.

Richard Wagner, vice-president of the company, is in Menomonee Falls directing the installation of the machinery. He is also making contracts with the farmers in the district. According to the officials of the company the outlook for the industry in this state is promising, and even though conditions for the first year's crop of beets are not the best it is thought that the company will be working on a paying basis from the first month.

The factory is situated in a district where the soil offers especial advantages for the industry, and the farmers with great zeal are adopting the idea of raising beets. The plan of the company is to furnish the farmers in the district with agriculturists free of expense to them and to charge them only a nominal rental for the implements used. The enterprise is looked upon so favorably that owners of land within a radius of more than fifty miles have gone to Menomonee Falls to arrange with Mr. Wagner for the sale of the product. The land formerly had been used for potatoes and corn. It is moist most of the season and this is one reason why it is adaptable to beet culture.

Mortally Wounded by Intruder.  
Cincinnati, O., Aug. 3.—Oliver Rudisell, employed in the Addyston foundry, was mortally wounded at 3 a. m. today by Edward Crosby, a fellow workman, in a fight in the dark at Rudisell's house, where Rudisell discovered Crosby when he returned from work.

Less Than Half Rates to Colorado, Utah and South Dakota, Via the C. M. & St. Paul Railway, August 1 to 10 inclusive and Sept. 1 to 10, inclusive, good to return until Oct. 31st. For rates, time of trains, etc., apply at passenger depot.

## Fancy Parasols

A sample line of two hundred—and no two alike—Fellmer, Clogg & Co.'s complete line of fancy sun shades at about half usual prices—a parasol purchase of unusual interest—prices range from \$1 to \$5, which represents regular values of double. Included in the assortment are about fifty Children's Parasols.

## Shirt Waists In Two Lots.

Every waist we show is of this season's production and are therefore very desirable. All colored waists which sold up to dollar are in a lot with a choice for 49 cents, and all colored waists which sold up to \$2 are in another lot with a choice for 89 cents, this latter line includes linen waists with black dots, also mercerized waists, plain colors and fancies. New white waists are being received every few days; ours at \$1.50 are great value.

## Black and White Dimities

The fad just at present is for black and white, and we have lately received twenty pieces of a fine sheer black dimity, all in white ground with black lace stripes, width 50 inches, price 15 cents. Plain Dimities are also selling well; colors: black, red, yellow, pink, light blue and navy blue; the same width, 50 inches; same price; 15 cents.

## Women's Neckwear

An important item this season, with new ideas every week. Popular sellers are corded hemstitched silk ties, 35 inches long, colors: black, white, red, yellow, pink, black and lavender; price 26 cents. Same styles of white lawn openwork, stripes, 50 cents. Same of linen with satin edges 39c. Stock collars, plain and with chiffon fronts, 26 cents to \$2. Many other novelties.

in the perfection of electrical goods of all kinds and in their manufacture, has placed them within reach of everyone.

Special low prices for wiring houses or stores in course of erection. It will cost more than double to have wires put in concealed after the building is completed.

Our rates for lighting and power are exceptionally low.

## JANESVILLE ELECTRIC CO.

21 West Milwaukee Street.

## MRS. ARTHUR VAIL FINDS A BROTHER

HE READ HER SAD STORY IN THE NEWSPAPERS.

John O'Halleran of Milwaukee, finds a Long Lost Sister in the Woman Who Was Deserted by Her Husband in Chicago and Sent to This City.

Many people, who were interested in the pathetic story of Mrs. Arthur Vail, who was deserted by her husband at Chicago on the way from Denver to this city and who was cared for at the Mary Kimball mission will be pleased to know that the publication of a few of the facts in her sad case in the newspapers was the means of a reunion between a brother and a sister who had not seen each other for many years and who had lost all trace of each other.

John O'Halleran, of Milwaukee, read the story in a Milwaukee paper and noticed that Mrs. Vail's name was the same as his own and that her home was formerly in La Crosse where her parents died. From these facts he believed that the unfortunate woman was a sister from whom he had not heard in years and he communicated with Mary Kimball.

Immediately on the receipt of her answer he came to Janesville and the meeting between the brother and sister long separated, was a most pathetic sight. Of course neither had known whether the other was alive or not and the fact that they had been brought together through the trouble of the sister was considered by them a mysterious providence.

The result is that Mrs. Vail will be kindly cared for at least until she is able to provide for herself.

Her brother is unmarried and expressed himself as glad to do anything within his power for his sister's comfort.

He is very indignant over the cruelty with which she has been treated by her husband and will do everything he can to keep the young wife's sorrow from blighting her life.

He was inclined to regret the publicity which had been given the story for fear that it might affect his sister's future but found comfort in the fact that the disgrace was not hers but that she was the innocent victim of another's perfidy.

Mrs. Vail denies emphatically the story sent out from La Crosse that she was married to Mr. Vail seven years ago when she was only thirteen years old, and that her people are still living there. She insists that she was married last February, that her husband was always and consistently good to her and that her parents both died several years ago. Mrs. Vail will remain in this city for the present, her brother paying her expenses.

## MOVE TO SECURE BRICK PAVEMENT

The Block on Milwaukee Street Between the Bridge and Main Street May Be Repaved.

A movement is on foot amongst the property owners on Milwaukee street between Main street and the bridge to put in a brick pavement on that portion of the street. Hayes Brothers are the prime movers in the enterprise and have secured the consent of Edward K. Carpenter, the other property owner on the south side of the street. Mr. C. S. Jackman who owns the block on the north side of the street was out of the city today so that his opinion could not be secured. Hayes Brothers are confident that Mr. Jackman will desire to have the street paved as it will be of great benefit to the property on both sides of the street.

At present the street is in bad shape and is very much in need of repair. Brick will make a pavement that is far ahead of the old blocks now in place and will make the street equal to West Milwaukee street.

If the consent of all of the property owners is obtained it will do away with the delay that would occur if it has to go through the usual channels.

## BEYOND LIFE'S CARES.

Catherine Keegan Dead

The home of Mr. and Mrs. E. W. Keegan, 57 Lincoln street, was visited by death at an early hour this morning and the spirit of their infant daughter, Catherine, was gathered back into the Heavenly fold from which it came. The little one was only six weeks old but her brief residence in the home had served to make her the idol of the devoted parents. Funeral services will be held from St. Patrick's church tomorrow afternoon at 2:30 o'clock. The interment will be in Mount Olivet.

Funeral of Dr. J. H. Warren  
The remains of the late Dr. J. H. Warren, who died in Palmyra on Wednesday last, passed through this city this morning on their way to Albany, Wis., where they will be interred this afternoon. The funeral services will be held at one o'clock the Rev. A. H. Barrington of this city officiating. Many beautiful floral offerings were sent to the train by friends in this city and a number from here attended the funeral.

Funeral of Mrs. F. D. Hogoboom  
The remains of the late Mrs. Frank D. Hogoboom will arrive in this city from Montclair, N. J., on Sunday morning at 11:47 o'clock over the Chicago & Northwestern road. They will be taken direct to Oak Hill cemetery where brief funeral services will be held. Rev. Walter A. Hall will be the officiating clergyman.

The funeral party left Jersey City last night at 9:30 o'clock over the Erie road and will arrive in Chicago on Sunday morning at 7:35 o'clock.

C. M. Clarke of Milton Junction was a visitor to this city yesterday.

## NEWS OF THE CITY

Attend our special sale of all summer goods. T. P. Burns.

Bort, Bailey & Co. offer this week \$1.50 lawn undershirts at \$1.

Only 15 cents for round trip to Crystal Springs Park Sunday.

Lawn undershirts worth \$1.50, now \$1 at Bort, Bailey Co's. sale.

The Gazette want ads on page 4 are proving of special interest to the public these days.

You save money on every purchase you make at our special sale of summer goods. T. P. Burns.

The C. & N. W. Railway will run an excursion to Oshkosh on Sunday, Aug. 11. Fare, \$1.50 round trip.

Gypsy fortune tellers, who are the real thing so far as looks go at least, are making the rounds of the city.

Regular Morgan & Wright \$6 bicycle tires I will close out at \$5 per pair. H. I. Gould, with Walter Helms.

Those lawn undershirts that we offer at \$1 each are good values at twice the price asked. Bort, Bailey & Co.

Wanted—waist and skirt hands, also finishers. Instructions given beginners. Factory thoroughly cooled by fans. Work steady. Isabel Mfg. Co.

Don't fail to attend our special sale of all summer goods, which commences today, and will continue all through August. T. P. Burns.

There is no time like the present for a woman to purchase a lawn undershirt. Our price now is \$1 for skirts worth \$1.50. Bort, Bailey & Co.

Special attention is called to the fact that the Congregational Sunday school meets at 9:30 o'clock in the morning in stead of at noon during this month.

Premium lists for the Rock county fair to be held at Evansville on September 3, 4 and 5 are being sent out by Secretary Campbell.

Special train excursion to the Dells of Wisconsin at Kilbourn, via C. M. & St. P. R'y, Sunday, August 11, only \$2 for the round trip, including steamer ride.

No coffee on the market equals the famous Richheimer's. It's roasted by electricity. Prices, 15, 20, 25, 30, 35 and 40 cents per pound. Richter Bros.

The bakers of Janesville are requested to meet at Assembly hall at ten o'clock tomorrow morning. Business of importance will be transacted.

At 15 cents per pound Richter Bros. sell the famous Richheimer's coffees that are roasted by electricity. No better coffee on the market at the price. Sold only by Richter Bros.

If you have a house to rent or sell there is no better way of reaching the masses than through The Gazette classified column. Three lines three times for 25 cents.

The Art League will visit Lake Geneva on Wednesday, Aug. 7, leaving St. Paul station at 7:30 a. m. Members please communicate immediately with Mrs. Chas. Sanborn or Mrs. J. F. Pemberton.

The funeral of the late R. S. Waite will be held from the Baptist church at 2:30 o'clock Sunday afternoon. Rev. H. Hanson of Beloit, will conduct the services, and interment will be made in the Afton cemetery.

The Forest Park car jumped the track last night about 9:30 o'clock and it was after midnight before it could be coaxed back onto the track and taken to its lodging place for the night in the power house.

The motormen in the employ of the Janesville Street Railway company have been taking turns enjoying an extra day off duty as compensation of the unusually long hours which they worked on circus day.

Rev. J. M. Sanderson will preach at the Presbyterian church tomorrow at the morning service at 10:30 o'clock. The Sunday school will meet at 9:30 a. m. and the Christian Endeavor society will meet at 6:30 p. m.

The case of the state of Wisconsin against John Husker of the town of Janesville for using abusive language is on trial today in the municipal court. August Bork is the complainant. States that Husker used the abusive language language to Bork's wife, Amelia Bork.

Members of the Parker Pen company force enjoy a half holiday on Saturday afternoons during the summer, taking advantage of the opportunity given them by their employers to work later on other days of the week and have Saturday afternoons for themselves.

The excavation for the foundation of the Soldiers' monument had to be made eleven feet and two inches deep instead of six feet on account of a solid bottom not being found short of that depth. The county will have to pay for the additional excavating.

The metal work on the outside of the Jackman block is about completed. The wooden awning over the front sidewalk has been taken down, which improves the looks of the front very much. The building when completed will look very much better and will be an ornament to the city.

Richheimer's coffees range in price from 15 cents to 40 cents per pound. These famous coffees are roasted by electricity and have flavor and strength that only the highest priced goods possess. When you want the best 25 cent coffee order Richheimer's. Sold only at Richter Bros.

There is only one way for those who are afflicted with troubled eyes to secure glasses that are reliable and that is to consult an eye specialist that knows his business and is at all times to be depended upon. Such a specialist is W. F. Hayes, with F. C. Cook & Co. Mr. Hayes is in his Janesville office for consultation Saturday and Monday.

George G. Sutherland is remodeling his block on the bridge over Bort, Bailey & Co's. store, so that the store will have the entire second floor back of Sutherland & Nolan's offices on the east side of the hall. The addition at the rear of the store will be raised a story. This will give Bort, Bailey & Co. one of the largest and best lighted carpet rooms in the city.

## PROFESSIONALS WIN FROM MERCHANTS

Amateur Game of Base Ball at Athletic Park Yesterday Afternoon—Score 18 to 15.

At the finish of the ball game at Athletic park yesterday afternoon between the business and professional men of the city the score stood 18 to 15 in favor of the professionals.

The game abounded in fine plays from start to finish. Both sides have been in training for the last month getting in shape for the game. The professionals were especially anxious to win on account of the business men already having a game to their credit. The game yesterday leaves each with a win and the tie will be played off in the near future.

Charles Spencer, the shoe man held down the dangerous position of umpire to the satisfaction of all and is now thinking of applying for a position with either the National or American League.

Tom Nolan occupied the box for the business men and B. H. Hopkins made a good back stop for his curves although not many of them got by the batters.

Rev. Father Collins handled the sphere for the professional men and showed that he knew how to play ball. He also batted out a home run and helped his side to win in many ways.

Jesse Earle caught for the professionals and was also a star performer. In his case law and base ball work well together.

The other members of the team worked hard for victory and are confident that the best team won. The deciding game in the near future will probably be for blood.

## BOOTBLACKS USE A LABOR UNION BADGE

The Fraternity in Janesville Don a Ribbon for the Purpose of Identification.

Hereafter when you want your shoes shined be sure the applicant wears a beautiful badge of old rose satin ribbon, the lettering on which will assure you that he is a union shiner. Recently the bootblacks of the city formed a union and they decided to let their light shine publicly and show their colors. Consequently this afternoon they had badges printed which they intend to wear every day so that the public may not be cheated into patronizing non-union bootblacks.

The badge which is of that peculiar shade of ribbon known as old rose bears the words, "Union Shiners," and also proclaims the fact that the union price for a shine is ten cents, "and put that in big letters mister," said the barefooted chap who made the bargain for having the badges printed. There are two to bootblacks in the Janesville union and they are all to be provided with badges which they are supposed to wear conspicuously all of the time that they are on duty.

A Delightful Company  
There was a delightful company this afternoon at the home of Mrs. Frank B. Farnsworth, 209 Park Place, the occasion being the third of a series of Saturday afternoon card parties given by Mrs. Farnsworth in honor of her sister-in-law, Mrs. Twigg Wiggin, of Chicago. About forty ladies were the guests and enjoyed thoroughly Mrs. Farnsworth's charming hospitality. The afternoon was devoted pleasantly to card playing which came to a close in time for the enjoyment of the delicious refreshments which were faultlessly served.

Merry Picnic Party  
There was a very merry picnic party at Spring Brook park yesterday afternoon. It was a neighborhood affair and the participants were a number of Third ward families. The ladies and children went to the park early in the afternoon and enjoyed several hours in the cool shade of the trees. The gentlemen joined the party at supper time and helped in the enjoyment of the elaborate feast of good things which the ladies arranged in true picnic fashion. The early evening was also spent at Spring Brook and those who participated in the picnic are enthusiastic in their praises of the grounds as the prettiest in this vicinity.

Another Franchise at Edgerton  
An application for another street railway franchise in Edgerton has been filed with the city clerk by J. M. Clancy of Stoughton, an attorney for James P. Walsh, of Chicago, who represents a syndicate of capitalists who desire to build an electric road from Janesville to Madison. These are the same parties it is believed who are behind the movement that is seeking a line from Rockford through Beloit to Janesville and from Lake Geneva to Delavan to connect with the first mentioned line. Franchises will also be asked of Stoughton and Janesville. The probabilities are that he common council will defer action on the first application until both matters come up together.—Edgerton Paper.

Francis Murphy League  
Tomorrow being the first Sunday in the month is the regular meeting day for the Francis Murphy Temperance League but the meeting has been postponed in the hope that arrangements can be made to have a meeting next Sunday when Dr. E. H. Pence is in the city. Dr. Pence is deeply interested in the Murphy League and the officers hope to be able to secure him for an address next Sunday afternoon.

The Ferris comedians open up their season of 1901-02 in this city, and several members of the troupe are now here and will rehearse preparatory to opening up about the middle of the month.

## NEWS OF A PERSONAL NATURE

## DIRECTORS OF THE COTTON MILLS

Meeting to Take Action on Several Propositions Received to Sell the Plant.

A meeting of the stock holders of the Janesville Cotton Mills was held this afternoon to take action on several propositions that have been received for the sale of the plant. The plant is stocked for \$35,000 and as yet no offer has been received that is more than thirty-five per cent. of the stock.

While a number of the stockholders are in favor of selling the plant they are not willing to give it away. While the works stand idle the expenses keep accumulating and eat up the surplus and many think it best to dispose of the plant before it is too late.

A large Milwaukee hardware firm is anxious to establish a barb wire and woven wire fence factory in this city and are said to be among those who have made a bid for the plant.

The exact figures of the bids are not known but are said to be so small that the works would bring more for junk than they amount to.

Alex. Galbraith Returns Home  
Alexander Galbraith has just returned home from a trip to Manitoba where he acted as judge of all classes of horses at he fairs held at Brandon and Winnipeg. The crops in that section of the county looked exceedingly well and the weather was delightful all of the time that he was away. Mr. Galbraith said he was thankful that he was not here when he received the reports of the sweltering weather that we were having. He and Mrs. Galbraith left this morning for Geneva Lake to spend Sunday.

Didn't Know It Was Loaded  
A young son of Mrs. Esther Baldwin, who resides on Clifton street, was fooling with a small pistol made to shoot blank ammunition for the Fourth of July, a few days ago and got a cartridge with a ball in it in the gun in place of a blank. He shot it off and succeeded in planting a ball in his leg just above the knee. Dr. Joe Whiting was called to attend him, and found that the ball was imbedded in the bone in such a way that it would do no particular harm and left it there as a reminder to the young man the next time that he fooled with a pistol.

THREE HUNDRED MEN WANTED

## Lax Business Methods of Race Horse Owners

By John Bullman,  
Winning Jockey in the American Derby.

gage a salesman to dispose of his wares! Even a follower of the races would have enough perception to see that there was SOMETHING WRONG with the business methods of that merchant.

All over the country, where I have accepted mounts in races, I have met with this display of laxity on the part of owners of good race horses. They sometimes retain competent jockeys and figure ahead that these men will ride their stake entries. But where there are a dozen such forehanded men there are hundreds of turfmen who are dependent upon promiscuous riders for piloting their animals in big stakes.

If I ever own a big stable—and of course I would like to have one—I will make it a point TO KNOW weeks before a stake is run just whom I am to have to ride my candidate.

The public by this time is familiar with the facts of my eleventh hour engagement to ride Sidney Lucas.

Fortunately I won the big stake.

It is also common gossip that I was engaged to ride at least three animals in the American Derby of 1901—two of the engagements came in one day—and how two hours before the \$20,000 stake was run I HAD NO CHANCE FOR A MOUNT.

Of course in the case of "Virginia" Bradley, the veteran trainer and good-hearted southerner who owned the winner, Robert Waddell, the laxity could be excused. He had been told a lot of false things about the boys he was considering for pilots, and could not be blamed for his indecision.

Fortunately for me, a friend told him that I WOULD ALMOST PAY MONEY to have a mount in the race, and he decided to engage me for \$2,000 to ride the game little gelding.

It is history how the juggling with jockeys at the eleventh hour nearly cost Morello, the greatest colt of his time, the Futurity. The owner had neglected to prepare for an emergency, and when he found that the man he was depending upon to pilot the colt in the rich stake could not accept the mount, he was "UP AGAINST A HARD PROPOSITION."

The Keenes, Richard Croker, W. C. Whitney—all of the wealthy and influential turfmen—are business men, and they see that their stables ARE CONDUCTED ON BUSINESS LINES. That means that they never will have any eleventh-hour juggling in the matter of riders for stakes.

Of course all owners are not so situated financially that they can afford retainers to high-priced jockeys, but if they only knew it they could follow a business system and be sure of riders.

It is reported that it costs nearly as much to live in Buffalo just now as it does to keep up appearances in any other city.

## Upon the Subject of "Mere Man"

By Madame Sarah Grand,  
Author of "The Heavenly Twins."

DOES IT FOR HIMSELF.

It is man who has dubbed himself "MERE MAN," and when he so describes himself ASK HIM WHAT HE WANTS. No man does it for nothing, for, since the time he swung himself from a bough in his primeval forest, and for the first time stood on his two legs, he has never assumed that tone for nothing; and it is necessary to be careful of him in that mood. It is often when in this mood that he holds the scepter out to women.

"MERE MAN" has his faults, but "SOVEREIGN WOMAN" is a rasping kind of creature.

I do not assume that all the misery in the world has been created by men. To me men have been GOOD, AND KIND, AND HELPFUL, when women have only held my bonnet strings.

The "blockhead majority" is not composed of men.

For a woman to have a good father is to be born an heiress, and a good husband is the prize of life. The memory of a good father prevents a woman's view of man from ever being distorted; and, if a woman has a good husband, the only fault is that she gets too wrapped up in the circle of home.

There are, however, four points of view of man—WORST, and BEST, ORIGIN and DESTINY. Between worst and best are infinite gradations, and anything one says might be true. Men's little faults are of the feminine kind—gossip, for instance, and they are often as garrulous as women.

The worst of "mere man" is his SLAVISHNESS TO HIS PREJUDICES, and to his newspaper, so that he may get his ideas ready made. He is a slave to the phrasemaker; he is terribly swayed by his lower nature; he seems to be afraid to own that he has a better.

The best of him is that he knows all this himself, but from woman he carefully conceals his faults, but just the same he expects her to be occupied with his reformation.

It is not the courage with which the man faces death that evokes my greatest respect for him, but THE COURAGE WITH WHICH HE FACES LIFE. The courage of men in face of life's difficulties raises my enthusiasm. It is his moral courage, which, when he displays it, is the true glory of "mere man."

Man is progressing as well as woman. His watchwords now are "Progress, Love, Learn, Teach," but so backward are the majority that a new thought has to fight for its life. But the idea is growing that people must be good to be worthy of admiration, and moral worth is becoming more and more the final test of genius in "mere man."

A woman whose only resources are her marriageable daughters, should do her best to husband them.

A great deal has been said about the lack of refinement on the race track. It is probably owing to the fact that there is always some coarse man there who is willing to bet on a courser.

It is a remarkable fact that while a fish diet is popularly supposed to strengthen the brain, most of the fish in the market have originally been in seine.

## WEATHER MEN TO MEET ON AUG. 27

Preparations for the reception of the visiting weather bureau men who are coming here to attend the weather men's convention, Aug. 27, 28 and 29, are now under way. Wilford M. Wilson, section director in Milwaukee, will have everything in readiness.

The weather bureaus of the United States now extend into Hawaii, the Bermudas, Cuba, Mexico, Central America and all through the West Indies. The man who attends to the weather of the Hawaiian Islands will be here, as will also the man from the Bermudas and several from Cuba. The exchange of reminiscences will be interesting as the man from the Hawaiian Islands and the delegate from the Bermudas have never had any experience with snow, while the famous "below zero" man, who has sent out prognostications from Medicine Hat has never experienced a temperature of 119 in the shade. Chief Willis Moore of Washington who used occasionally to tell Milwaukee people that it was going to rain, when it didn't, and that warm weather was coming when a snow storm ambled along, will be here, and is expected to have some sage advice to offer as to methods of straddling the question when it isn't really known just what the sun and winds are going to do to the man afraid of a rain drop and the farmer with a large crop.—Milwaukee Sentinel.

What most people want is something mild and gentle, when in need of a physic. Chamberlain's Stomach and Liver Tablets fill the bill to a dot. They are easy to take and pleasant in effect. For sale by People's drug store and King's pharmacy.

### The Dells of the Wisconsin.

The Chicago, Milwaukee & St. Paul excursion to Kilbuck to enable every one to see the wonders of the Dells. The excursion tickets include steam-er ride on the river. A special train will leave Janesville at 7:40 a. m. Sunday and returning will leave Kilbuck at 6:30 p. m. This is an excellent opportunity for a trip full of instruction, enjoyment and recreation.

### Making Twine From Grass.

Twine from grass is a cry that may be heard more and more, as the few plants up north report progress. It seems that there are a million acres in Wisconsin and Minnesota alone on which grows this "wire grass" (carex stricta). It is unlike common grass, in that it is provided with a solid stem without joints. It has no lateral leaves, but the round blades grow straight from the roots to an average height of three or four feet, forming one continuous fibre. The true grasses, on the other hand, are hollow stems, with points and lateral leaves. Animals will not eat the stuff because it is tough and with a minimum of nutriment and the land it grows on seems to have no value. The demand for twine is ever growing and the concerns that are working not only twine grass but rugs, etc., from field products, are confident they are on a profitable lead.

## How Will She End?

Just budding into womanhood, so fresh, so fair and fine that we turn to watch her as she passes, she trips along the street a picture of health and beauty. Among the passing crowd of worn and

wrinkled women, she looks a being from another world. Will she ever be like them? Could they once have been as fair as she? No beauty can last under the strain and drain of female weakness, from which the majority of women suffer in a greater or less degree. They might preserve their fairness of face and form if they would cure the disastrous disease which affects the womanly organs. Women are cured of such diseases by the use of Dr. Pierce's Favorite Prescription. It stops the enfeebling drains, heals inflammation and ulceration, cures bearing-down pains, strengthens the nervous system, and restores the general health. It contains no opium, cocaine or other narcotic.

"I had been a great sufferer from female weakness," writes Mrs. M. B. Wallace, of Muncaster, Cook Co., Texas. "I tried four doctors and none did me any good. I suffered six years, but at last I found relief. I followed your advice and took eight bottles of Dr. Pierce's Favorite Prescription and four of his 'Golden Medical Discovery.' I now feel like a new woman. I have gained eighteen pounds."

Dr. Pierce's Pleasant Pellets cure biliousness.

## CHICAGO MUSICAL COLLEGE

Established 1867. DR. F. ZIEGFELD, President.  
COLLEGE BLDG., 202 Michigan Boul., Chicago, Ill.

## Music SCHOOL OF ACTING

BOARD OF MUSICAL DIRECTORS:

## 36th SEASON BEGINS SEPT. 9.

The Chicago Musical College is the largest and most complete school of its kind in America.

The new College Building is the finest structure in existence devoted exclusively to a musical institution. The system of instruction and arrangement of courses represent the outcome of thirty-five years of experience.

The terms of tuition are the lowest commensurate with the high-grade of instruction.

New Illustrated Catalogue Mailed Free.

NOTE—Applications for the \$7 free and 150 partial scholarships will be received until August 10.

## A COMMON ERROR.

The Same Mistake is Made By Many Janesville People.

It's a common error of plaster the aching back, to rub with liniment rheumatic joints, when the trouble comes from the kidneys. Doan's Kidney Pills cure all kidney ills, and are endorsed by Janesville citizens.

Mr. Samuel Griffin, of 203 Locust St. journeyman car enter, says: "I had a severe attack of la grippe and as a result weakness of the kidneys set in. The secretions from those organs were greatly disordered, annoyed me much at night and I seemed to have lost control of them. After finishing the treatment my kidneys were so strengthened that I could sleep all night without being disturbed. I am better now than I have been for years, and give all credit to Doan's Kidney Pills for bringing about this result."

For sale by all dealers. Price, 50 cents. Foster-Milburn Co., Buffalo, N. Y., sole agents for U. S. A. 10 on at King's Pharmacy.

Remember the name, Doan's, and take no substitute.

**LAMB & BARLASS,**  
Court Street Bridge. Janesville.

## EDGERTON ALIVE TO THE SITUATION

A committee consisting of City Clerk Henry Johnson, City Attorney Henry S. Sloan and Aldermen Knapp and McIntosh of Edgerton, have been visiting a number of cities in the state, connected with the larger cities by electric railroads to see what effect it had upon them from a business standpoint.

Edgerton has been asked to grant a franchise to an interurban road and proposes to have the matter thoroughly looked into before they enter into any agreement.

The committee were in Milwaukee on Thursday, and they also visited Racine, Kenosha, Waukesha, Oshkosh, Neenah and Menasha. Business men in each of these places were interviewed and their views on the subject obtained. Although Edgerton is not against granting electric railway franchises, they wish to be thoroughly acquainted with the subject and to know what restrictions to impose upon a line getting a franchise.

### AMONG THE RAILROADS.

The Northwestern road is now experimenting with crude petroleum on a ten-mile stretch of track on the Galena division. If it proves what other roads have found the entire Chicago-St. Paul line will be oiled. The cost of oiling the grade is about \$75 a mile and the increasing supplies of the crude oil is making the cost less daily. The oil lays the dust, preserves the ties, and helps keep down the weeds, and needs to be sprinkled but once a year. Many western roads have tried it with success and economy. It is hoped the Milwaukee road will try it on the Chicago run where the Hammond gravel filling is very dusty.

An interesting case is now on at Green Bay among the Northwestern men. They are holding a trial of one of their own men among themselves, and will report their findings to their railway chiefs. The story is that the switching crew was using a link for experimental purposes and the switchman, Frank McCarthy, requested the engineer, Edward Sheehy, to come down easy, and claims he did not do so, hence a row. Now the men have taken it up themselves in a court of their own in the general interests of discipline. The experiment is a new one and is being watched with interest by railway men.

The Southern Pacific railroad is going to spend \$15,000.00 in turning its coal and wood motive power in California into oil. Pipes and reservoirs are to be laid and built and every appliance put in that is necessary to run the engines by oil. One of the great difficulties on the California roads is coal. Several lines, notably the Portland-San Francisco, have been using wood burners, as wood can be bought for one-third the cost per unit of power of coal. Coal is scarce on the coast and a poor quality sells as high as \$7 a ton delivered at the sheds. Oil is plenty and cheap and is also a clean train fuel. It is being used to a large extent now in Southern California, and the south-west, and its use is steadily increasing. Several western and northern roads are experimenting with it, the Wisconsin Central being among them.

**Dr. Stephen Foss Dead.**  
New York, Aug. 3.—Dr. Stephen Foss, formerly a practicing physician and a Greek scholar, is dead at his home in Brooklyn. He lost his eyesight on account of constantly poring over Greek manuscripts and for the last five or six years had been almost totally blind. Dr. Foss was born in Portland, Me., nearly 76 years ago. He was graduated from Bowdoin college and received a medical degree from Harvard university. When the civil war broke out Dr. Foss, then practicing medicine in Cincinnati, enlisted as an assistant surgeon.

**Elected by Catholic Women.**  
Detroit, Mich., Aug. 3.—At the session of the Ladies' Catholic Benevolent association the salary of the president was fixed at \$2,000 per year, with clerk hire and office rent added. The supreme recorder will get \$2,500 and the treasurer \$1,000, also with clerk hire and office rent thrown in. Late in the day the election of officers was taken up and Mrs. Elizabeth B. McGowan of Pittsburg was re-elected president. The other officers will be elected at the closing session.

**Roosevelt Talks in Colorado.**  
Colorado Springs, Colo., Aug. 3.—Twenty thousand people crowded around the speakers' stand in Acacia park at 10:30 a. m. to hear Vice-President Roosevelt. More would have done so had there been a possibility of hearing him. The subject, "The Growth of the West During the Past Quarter of a Century," was familiar and of stirring interest to the speaker himself. It was a noteworthy effort.

**Negroes Enter the Mills.**  
Cleveland, O., Aug. 3.—The big steel combine is utilizing negro labor to supplant its white workmen in the Newburg mills here. Already a couple hundred brawny colored men have come to the city from Pittsburg, Homestead and adjacent iron centers in Pennsylvania. They are brought here by one of their own race, who is acting as agent for the steel corporation. When the colored men arrive they are sent to the mill, where a large dwelling house is used as a domicile. Many more negroes, it is said, will be brought here and a general emigration of colored workmen familiar with the manufacture of iron and steel from the south is prophesied by a colored agent of the steel corporation.

Mrs. Edna Palmer is quite ill at her home, 115 Madison street.

See the approach of the West End Club loafer of Timbaktu?

—whose hat is a patent pneumatic, hydraulic one that squirts out mustard and water. Chalk up one to the missionary man.

**A Different Case.**  
"Poor old Jim! I feel for him. He's had an addition to his family."  
"I don't see why you sympathize. He ought to be congratulated."  
"Yes, I reckon that's so, ordinarily; but Jim didn't order triplets."—Denver Times.
